BLOOMING WITH IDEAS

The Blooming Template is a wonderfully versatile tool by Black Cat Creations. Led by Minay Sirois the class will explore the many ways to use this template to create leaves, flowers, double wedding ring units, twisting ribbon borders and a host of other things. There are many Black Cat patterns available that use the template so come and get some hands-on experience and let your ideas bloom!

Supply List

Three half-yard pieces of fabric to cut up. If you have odds and ends you can bring them as well. Color doesn't matter since we are learning technique, but please have it starched and ironed before class.

Regular cutting ruler(s) – 6" x 12", 6" x 24" or a 12" (or so) square

Rotary cutter – the smaller 28mm size is better because you will be cutting curves.

Cutting mat – a medium size or a rotating mat because you will need to turn the mat as you work

Blooming Template

Baby Blooming Template set

Gripping material for on the templates – sandpaper dots, thin clear dots or circles, or clear film so they won't slip. Do not bring the raised dots as the fabric slips under the template with these.

Sewing Machine and attendant parts – don't forget the power cord and foot pedal!

Regular sewing supplies –thread, light and dark markers, seam ripper, pins, etc.

Bring a lunch.
