## **SCRAPPY MANY TRIPS AROUND THE WORLD** - Jo Henley teacher

Come along with us on this Scrappy Many Trips Around the World adventure! This is a great quilt for confident beginners and experienced quilters alike. The easy strip-piecing method makes blocks go together quickly. It's a great way to use up your scraps, jelly rolls and fat quarters.

During the class you will learn how to mix fabrics for your totally scrappy quilt. Come with a sense of adventure and a willingness to combine all those scraps you have collected from previous projects!

Each student will receive a complete lesson plan with pattern and supply list at the first class. We will complete as many blocks in class as we can (there will be homework). Students will be able to continue the process to make a throw quilt measuring 50" X 62".

### **Supplies:**

Sewing machine, cord, foot pedal, 1/4" foot (have working knowledge of your machine)

Rotary cutter and cutting mat (at least 12" x 18")

Clear ruler with 1/4" measurements (at least 12" long)

Thread for your machine and a pre-wound bobbin

Fabric scissors

Seam ripper (this is important!)

Glass head pins/pincushion

*Optional* - Small iron and pad for personal use (not required; we have some irons available in classroom)

### **Fabric:**

For the first class, bring one light fat quarter (pink, yellow, tan), one red fat quarter, and a fat quarter of the ugliest fabric you own. We will share some fabric strips during class with each other to get more variety. (About the only fabrics that won't work are really large multi-color prints.)

Due to time frame of class, feel free to bring a snack lunch.
