Overview

Prepared Edge Class Using Appliquick Tools by Leslee Price

3 hour class: Minimum # of students – 6
Maximum # of students - 12

This class will demonstrate all the steps needed to prepare your appliqué pieces using the Appliquick method.

This technique will be demonstrated step by step and you will actually complete all the pieces of a flower pattern, including adhering it to a background block ready to appliqué by hand or machine. The actual appliquéing will not be done in class.

A kit is required (\$8.00) and consists of a sheet of Quilter's Select Print & Fuse Lite, pattern, handouts, and fabric needed for the class project.

ITEMS TO BRING TO CLASS: (these are available at Painted Pony)

Appliquick Rods (*note: this item is not eligible for discount*)

Washable work surface – A non-skid, washable, reversible, black/gray mat works the best and is available at Painted Pony. But, you can use a cutting mat or other washable surface.

Pencil - I use a mechanical pencil for accuracy when tracing.

Glue Pen AND refills – I prefer *Quilter's Select Glue Pen*, but *Sewline* works also.

Fabric Glue – I like *Roxanne's Glue-Baste-It* in the EZ-Squeezie bottle.

Small (4 or 4 1/2") serrated scissors - I use the green handled ones by Karen Kay Buckley.

OPTIONAL ITEMS

Light box (Painted Pony does have one you can share in class if you don't have one, but if you plan to do a lot of appliqué, I'd highly recommend you get one)

Wooden glue holder (very handy - I'll show you in class)

Note: I have a pattern available to make a holder for your Appliquick tools if you are interested.
